Juliano Daniel Marcelino, M.Sc.
System and Business Analyst

Life Philosophy

I enjoy help people (and companies) to solve problems.

Profile

Solid experience in IT and customer support, IT management, governance, consultant and teaching experience, on worldwide companies and organizations.

Hard skills includes business and systems analysis, software development, among other technologies, as well in agile methodologies and lean IT.

My main soft skills are ethics, teamwork, organization, QC-Story, communication, negotiation and flexibility.
